

SIGMA-SERIES

Recapper for
Screw Cap
Tubes

Cap and decap a full rack
of tubes in a single action

Cycle time of 30 seconds

The **AFYS3G Sigma-Series** offers users the ability to cap and decap a full rack of tubes in a single action and can be used as stand-alone equipment or be simply integrated into a fully automated laboratory environment.

The AFYS3G Recappers for Screw Cap Tubes, caps a full 96-, 48-, or 24-well format rack in 30 seconds and are compatible with brands like: FluidX, LVL Technologies, Micronic and Thermo Matrix. Depending on which option is chosen.

The Screw Cap Recappers use a precisely determined torque value for optimal sealing quality thereby minimizing sample evaporation and maximizing the integrity of your valuable samples.

Recappers for Screw Cap Tubes Sigma-Series

The AFYS3G Recapper Sigma96 offers user the ability to cap, decap or recap 96 tubes with Screw Caps in a single action. The Sigma48 and Sigma24 are respectively compatible with 48-well and 24-well format racks. The AFYS3G Recappers are reliable and durable instruments for any lab managing compound libraries or biological sample stores that want to increase sample throughput.

Compatible with most common brands

Intuitive touchscreen interface

Features

- Cycle time of 30 seconds
- Caps and decaps a full rack of tubes in a single action
- Intuitive touchscreen interface
- Compatible with a variety of brands like: FluidX, LVL Technologies, Micronic and Thermo Matrix
- Can be used as a stand-alone instrument or be simply integrated into a fully automated laboratory environment
- Standard equipped with Tube Detection Sensor

Benefits

- Precise torque value is set for optimal sealing quality
- Easy accessible for maintenance
